CENTRE FOR SUSTAINABLE FINANCE TOITŪ TAHUA

www.sustainablefinance.nz

Background

Centre for Sustainable Finance Toitū Tahua was established in 2021 to accelerate Aotearoa New Zealand's progress towards a sustainable, inclusive financial system. The Centre's work is anchored in the Sustainable Finance Forum Roadmap, which outlines a set of implementation principles that is followed in its work.

Objectives

The Sustainable Finance Forum Roadmap consists of three core objectives:

- Changing mindsets: Educating and creating action through leadership in financial institutions.
- Transforming the finance system: Embed environmental and social outcomes into Aotearoa's financial system.
- Financing the transformation: Accelerate the redirection of capital towards sustainable investments in Aotearoa.
